

Parents,

Below you will find communication from the transportation department regarding changes that will take place beginning Wednesday, August 29. Today we delivered a multitude of new bus passes to students. Please check with your child to see if they received a new pass. If they did, please react accordingly. If they did not then everything remains static with their bus transportation. Please read the following completely and contact us with any questions.

In service,

Richard Green

Principal

Aaron Cohn MS

Greetings

In our efforts to get students to school safely and on time, it sometimes becomes necessary to make bus and/or time changes. These changes may be for reasons such as overcrowding, low rider-ship, efficiency, driver shortage, etc. At this time, it is necessary to change your child's bus and bus arrival time. Please see attached updated route sheet.

The following changes made are:

Bus change:

Route 762 has split with Route 696 (reduce overcrowding)

Stops from 645 and 856 has been added to Route 695 (reduce overcrowding)

These changes will be effective, Wednesday, August 29, 2018.

In addition, parents may access the updates on the following link: <https://muscogee.k12.ga.us/Divisions/OperationsAndFacilities/Transportation/BusStops>

Thank you for your cooperation in this matter.

Herbert Hill

Director of Transportation

Muscogee County School District

Transportation Department
