STUDENT RESOURCES

CLEVER
 Students will find this icon in their menu when clicking at the bottom of their Chromebook screen. If they can't locate it, go to <https://muscogee.k12.ga.us/Families> and find the Clever portal there. From here, they will be able to access everything else (e.g. Canvas)!

CANVAS: CHECK HERE 1ST!
 Students will find all their class websites in one place. Teachers will put their class syllabus, schedules, expectations, assignments, tests, etc. on here. The calendar feature on here is quite helpful!

PARENTS! Want to know what was assigned? Download the app!
 *This is the primary way teachers will communicate with students and observers. You can also keep track of your student's assignments and progress. Have your student go to their Canvas -> Settings -> Pair with Observer -> Use student pairing code to connect with them in the app!

Parents! Please download the Infinite Campus Parent Portal * This is where ALL GRADES ARE POSTED, you can see what assignments are missing, whether your student is keeping up with class work, attendance & tardy records, student schedules, and any grades students receive. Please look HERE for grades. You will need to get an access code from the front office to get started, but CHECK THIS DAILY OR WEEKLY! Turn on notifications and never miss a thing!

ELA & MATH: TEXTBOOK
 To access the ELA textbook, find this icon in Clever. Students will choose Georgia Collections, then choose their grade level to find the student e-book.

To access the Math textbook, click on the same icon, but instead GOMath, then grade level.

SOCIAL STUDIES: TEXTBOOK

To access the Social Studies textbook, find this icon in Clever. Your teacher will post instructions on Canvas for which assignments to complete in Gallopade.

SCIENCE: TEXTBOOK & RESOURCES

Actively Learn is a new science program which includes articles & virtual labs. Gizmos is a complete virtual lab that students can use to actively engage in their learning! Both programs are standards based, so you know your child is mastering the content.

ELA, SCIENCE, & SOCIAL STUDIES: ACHIEVE

Students will take their Level Set when signing into Achieve the first time. It is imperative that they do their best on this! From here out, they will be assigned articles to read to help improve reading skills and increase Lexile reading level.

ELA: LEXIA

Students will take an initial placement test, determining their recommended work time per week. Then they will then work on Grammar, Comprehension, & Word Study each week to improve their skills! There is a designated time at the beginning of the day for Lexia and IXL.

Lexia PowerUp

MATH: IXL & EDULASTIC

Students will take periodic diagnostic tests in IXL to check progress and improve their skills. IXL and Edulastic will be used regularly for practice, remediation, and assessments.

USA TEST PREP

Many teachers use this tool to assess Georgia standards and to monitor progress in content mastery.

- Step 1: Go to www.usatestprep.com
- Step 2: Click on Create Account
- Step 3: Type account ID: blackmon98
- Step 4: Type student activation code: stu6526
- Step 5: Students will complete personal information
- Step 6: PLEASE USE YOUR COMPUTER LOGIN AS YOUR USERNAME AND PASSWORD!
- Step 7: Click AGREE and Create Account
- Step 8: Login using your login/password

NEED TO GET IN TOUCH WITH SOMEONE?

To find individual teachers & emails, please go to the MCSD homepage, and search Blackmon Road. From there, you'll be able to access the school website for BRMS, and you can search by staff, or about us --> academic departments.

Scan the QR code to access the BRMS website using the camera on your phone!
