Raptor School Security

Dear parents/guardians,

In keeping the safety of our students a top priority, the Muscogee County School District has implemented a new visitor check in system for our schools. The new system is called Raptor and requires visitors to scan their driver's license before gaining access to our class rooms and students. The scan provides a quick check to determine if there are certain legal restrictions on an individual's ability to visit a school. Once the license is scanned, the driver's license is supposed to be stored in the data base thus negating the need for a visitor to provide a license at every visit.

As we have worked through this new visitor check-in system this year, it seems that the drivers' licenses are not always being stored. In order to alleviate any inconsistencies when individuals visit Johnson, I am asking that **all visitors bring their driver's license each and every time they visit our school** until this glitch is corrected.

Please be patient as we continue to work through this new system. The safety of our students is worth any inconvenience this new visitor system may cause.

Sincerely,

Mark Hanner
