

Knowledge is **Power**. Join **Work-Based Learning**

What is WBL?

Work-Based Learning is by design a necessity concerned with knowledge which is often unsystematic, socially constructed and is action focused by the worker in order to achieve specific outcomes of significance to others. The importance and complexity of the work based context for learning makes work based learning different from formal classroom-based training or education.

February Student of the Month

Kennedee Wright

Senior
Works at Country's BBQ
Columbus, GA

Interest Forms

Spots in WBL are limited for next school year. Please click on the above link to download an interest form. Please return your form to the Media Center.
