

Night Owls Skills & Credit Recovery Contract/Name of Course: _____

Night Owls Credit Recovery is much more challenging for most students because it requires a balance of make-up work for the student, while keeping up with current work. This takes good time management skills. **This opportunity is for any student who is failing a course.** Students interested in **Night Owls Skills & Credit Recovery** must participate in the course as outlined by the current teacher.

1. **Students are required to make-up all work assigned from the teacher. Failure to complete assignments voids the contract. All work to make up by the student must be completed on a consistent basis.**

2. **Course Overview:**

- Students will work on the assignments as agreed, but the work must be completed by the end of the allotted time given by the teacher
- Course work can be completed well ahead of the deadline if you so choose
- Students will communicate with the instructor to ensure that all assignments have been completed

3. **Parent/Student Responsibility**

- Parent and Student must sign the course expectations with the teacher of the course
- Parents need to provide the time and resources to complete the assigned work
- The student must follow through on the credit recovery in order to participate
- Parents can check the student's grade in the course by logging into the Infinite Campus Parent Portal

4. **Ways we will support you:**

- Teachers will identify the assignments needed for credit recovery (i.e. projects, tests, classwork, homework, etc.)
- Teachers will send email and phone reminders to parents and to students when work is not submitted
- Teachers will respond to email and phone calls within 24 hours unless otherwise arranged with the students
- Teachers will grade work and provide feedback to the student about their progress on the assignments given
- Teachers will provide an open and conducive environment for the work assigned
- Teachers will contact the parent prior to identifying the student as failing the course
