SLDS Trainer

Parent/Student Portal into SLDS

Parents now have access to their children's SLDS data through the SLDS Parent Portal.

This is accessible to parents directly through their district's SIS.

No additional logins and passwords are needed.

standards
and view
reports

Parent/Student Portal into SLDS

Richard Woods,
Georgia's School Superintendent
"Educating Georgia's Future"
gadoe.org

The screenshot displays the Infinite Campus Parent/Student Portal. The top navigation bar includes a 'Campus Portal' tab, a 'SELECT A STUDENT' dropdown, a 'Welcome' message, and links for home, notifications, and sign out. The sidebar on the left lists various options under 'Family' and 'User Account'. A red box highlights the 'SLDS Portal' link in the sidebar, with a red arrow pointing to it. The main content area shows 'District Announcements' with a list of messages. The first message, dated 03/03/2015, is titled 'SLDS Portal' and asks parents to contact their child's school with any questions regarding the SLDS Portal or data within the portal. The second message, dated 10/04/2011, is titled 'Go Mobile' and provides instructions for accessing the portal on a mobile device. The third message, dated 04/13/2011, reminds users to select 'SIGN OUT' in the top right corner of the screen to prevent sessions from causing database errors. The fourth message, dated 04/03/2011, provides instructions for navigating the parent portal interface. The fifth message, dated 07/24/2009, describes the portal as a web-based service that allows parents to monitor their children's classroom grades and attendance in real-time. The bottom of the page features a language dropdown menu set to 'English'.

GSGM Student Report ²

1 of 1 Find | Next

Jones, Susan A.

Attendance

School Year	Days Absent
2010	3
2011	2
2012	1
2013	7
2014	4
2015	14
2016	4

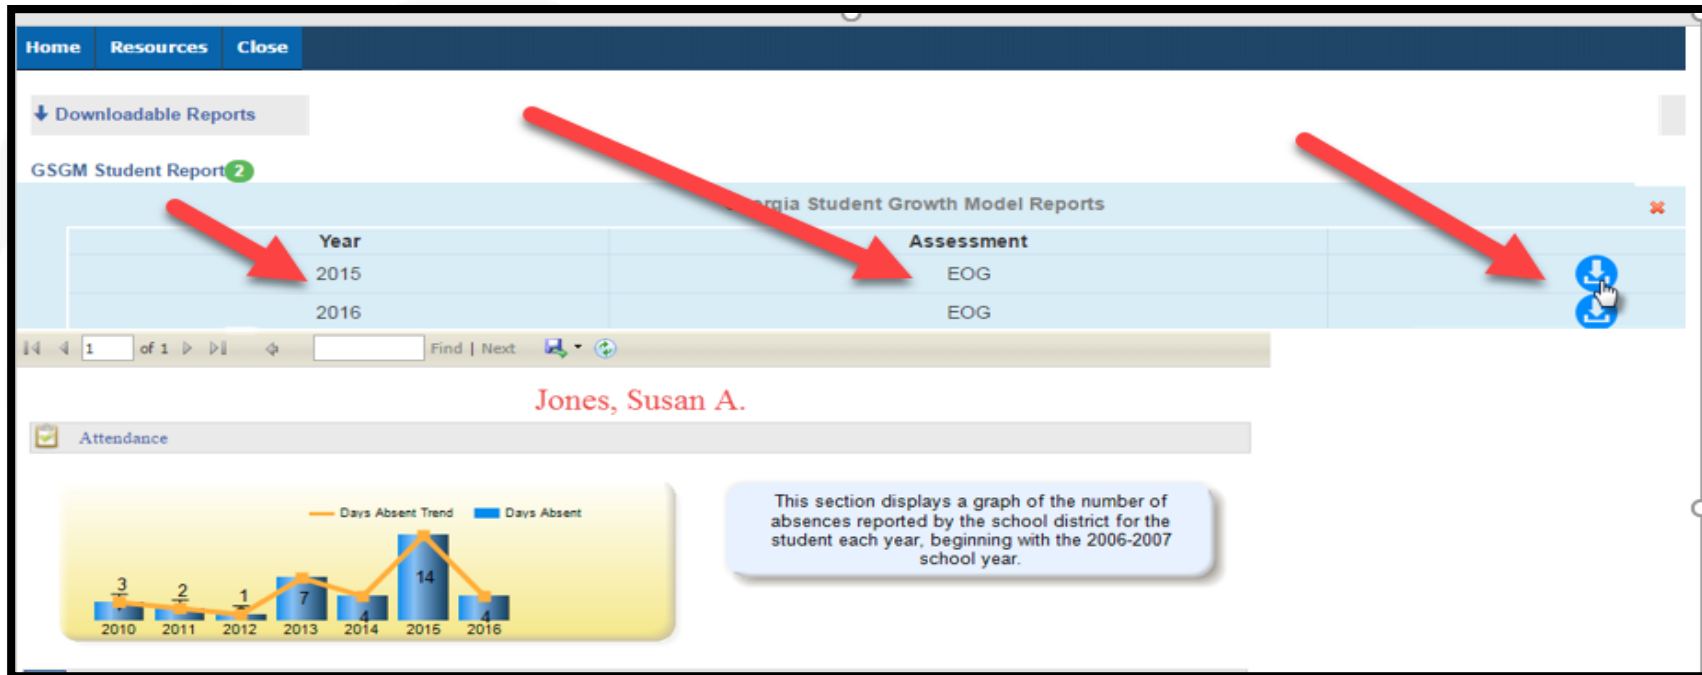

This section displays a graph of the number of absences reported by the school district for the student each year, beginning with the 2006-2007 school year.

Assessments

The Student Lexile Scores chart displays the student's Lexile score achieved on the CRCT/CRCT-M in Reading, the Milestones End-of-Grade test in ELA, and the End-of-Course test in 9th Grade Literature and American Literature, as compared to the stretch Lexile range for that grade level.

Under "Downloadable Reports," parents may view documents pertaining to their child. GSGM is the Georgia Student Growth Model report.

Parent/Student Portal into SLDS

The screenshot shows the 'GSGM Student Report' section. A table titled 'Georgia Student Growth Model Reports' lists reports for the years 2015 and 2016, both with 'EOG' assessments. Red arrows point to the 'Year' column, the 'Assessment' column, and a blue download icon in the right margin. Below the table is a search bar and the name 'Jones, Susan A.'. Under the 'Attendance' tab, there is a bar and line graph showing 'Days Absent' (blue bars) and 'Days Absent Trend' (orange line) from 2010 to 2016. A text box explains that the graph shows the number of absences reported by the school district for the student each year, beginning with the 2006-2007 school year.

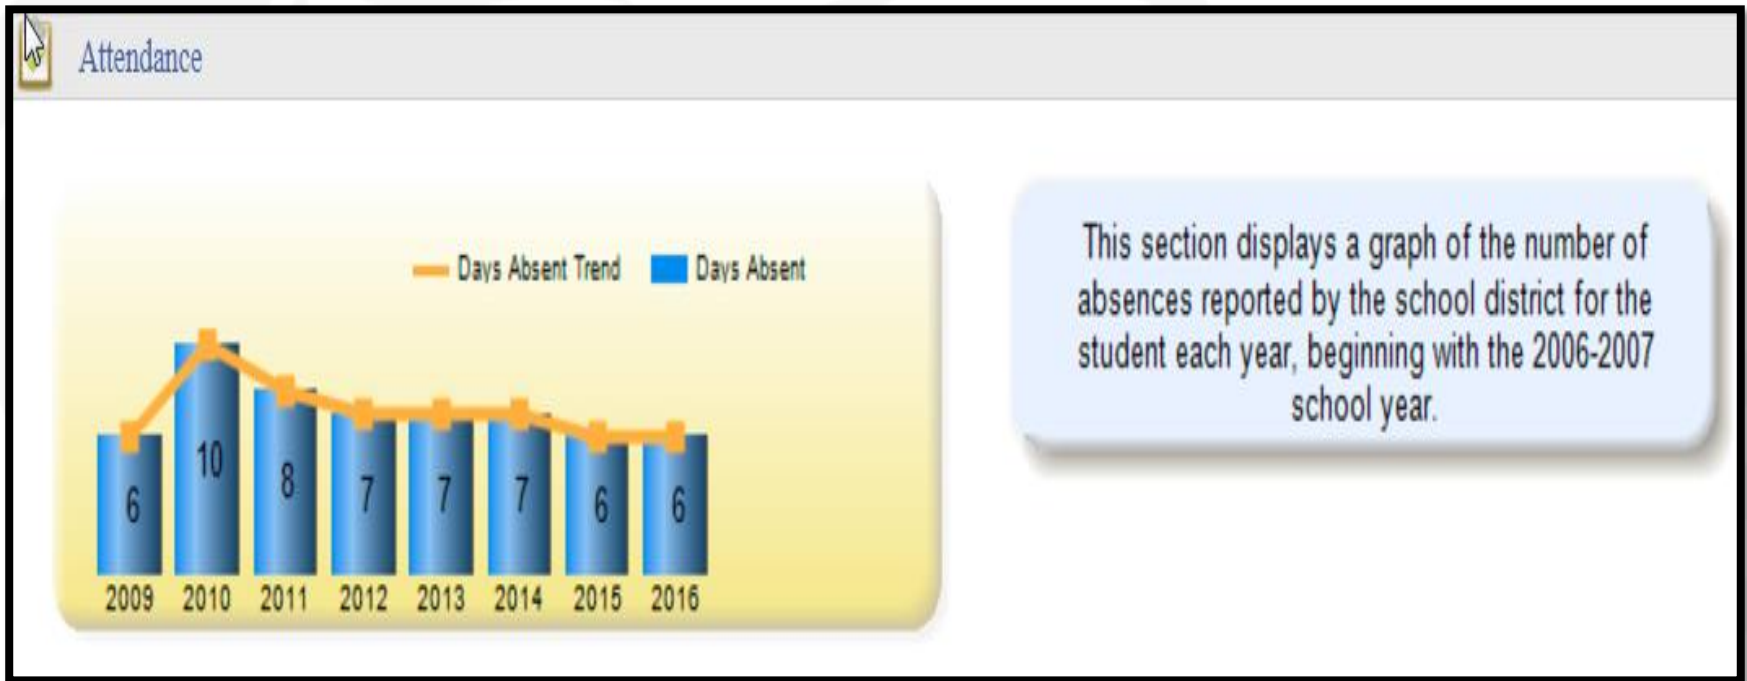

Year	Assessment
2015	EOG
2016	EOG

Attendance Graph Data:

Year	Days Absent
2010	3
2011	2
2012	1
2013	7
2014	4
2015	14
2016	4

A list of available reports will be displayed in a dropdown list. Click on the blue download icon to view the report and a PDF version of the report will be downloaded to your computer. The way in which this PDF is downloaded will vary based on your browser and operating system.

Number and Operations – Fractions

Number and Operations in Base Ten

Operations and Algebraic Thinking

Standards for Geometry

MGSE3.G.1

Understand that shapes in different categories (e.g., rhombuses, rectangles, and others) may share attributes (e.g., having four sides), and that the shared attributes can define a larger category (e.g., quadrilaterals). Recognize rhombuses, rectangles, and squares as examples of quadrilaterals, and draw examples of quadrilaterals that do not belong to any of these subcategories.

MGSE3.G.2

Partition shapes into parts with equal areas. Express the area of each part as a unit fraction of the whole. For example, partition a shape into 4 parts with equal area, and describe the area of each part as $\frac{1}{4}$ of the area of the shape.

Resources

▶ Quadrilaterals- Guided Practice

▶ Geometry Manipulatives

▶ Properties of quadrilaterals

▶ Quadrilaterals

▶ Quick Shapes Review (Rhombus, Trapezoid, Quadrilateral, Parallelogram)
