

# Summer Learning Experience (SEL) 2022

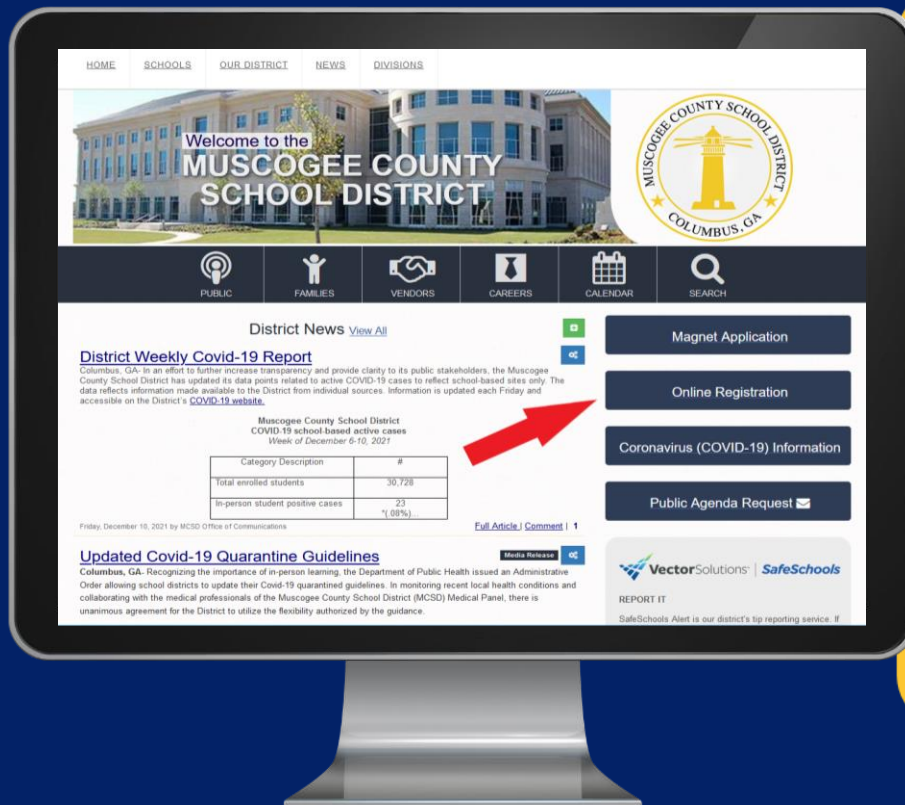

# Registration Process

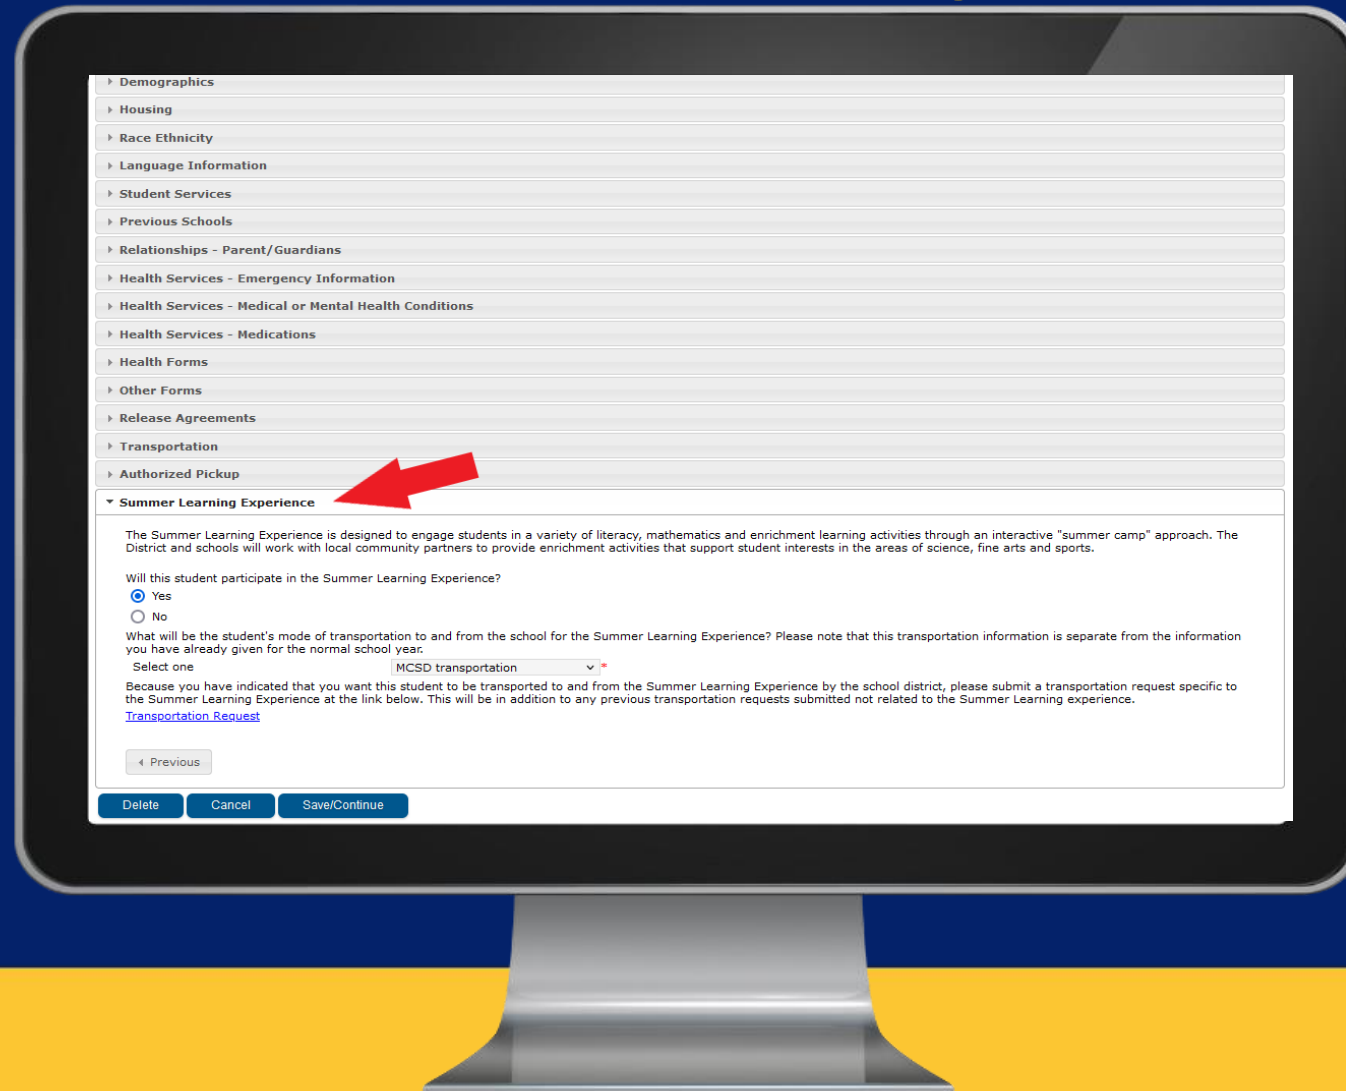

- **What is the window for registration?** Parents can choose for their students to participate in SLE when the Online Registration window opens on March 1, 2022. The SLE registration window will close on April 29, 2022.

- **Why are we using the Online Registration process for Summer Learning Experience?** Utilizing Online Registration for SLE means that parents will not have to fill out a separate application. They will make the choice to attend SLE at the time they are registering for the normal school year.

- **Explain the SLE registration process using Online Registration.** When a parent is registering their student(s) for school using Online Registration, a new section for SLE will be shown for each student. This new section will have additional information for parents about the SLE.

**Summer Learning Experience**

The Summer Learning Experience is designed to engage students in a variety of literacy, mathematics and enrichment learning activities through an interactive "summer camp" approach. The District and schools will work with local community partners to provide enrichment activities that support student interests in the areas of science, fine arts and sports.

Will this student participate in the Summer Learning Experience?

Yes

No

What will be the student's mode of transportation to and from the school for the Summer Learning Experience? Please note that this transportation information is separate from the information you have already given for the normal school year.

Select one

MCSO transportation

Because you have indicated that you want this student to be transported to and from the Summer Learning Experience by the school district, please submit a transportation request specific to the Summer Learning Experience at the link below. This will be in addition to any previous transportation requests submitted not related to the Summer Learning experience.
