## 9 Weeks Testing

All academic content courses are required to have a nine weeks' test. These cumulative tests developed by our academic departments serve as a measurement of content mastery covered in each academic core area at the end of the grading period. Students meeting the criteria listed below will be eligible to exempt nine weeks' exams in up to four academic core classes: Social Studies, Math, Language Arts and Science.

Exam exemption means a student may NOT be required to take the exam for a qualifying class, and/or the exam grade will not count against the student as they are exempt or will count to replace a low grade. During exam days, daily attendance to school is still required.

Exams are given over a four day period as established by the school's nine weeks' testing schedule. Students will still have academic work in the remaining classes each day. The criteria for exemption is per class, per nine week period, and is as follows:

A class average of 88 and perfect attendance prior to the end of the 9 weeks or  
A class average of 93 for the nine weeks.

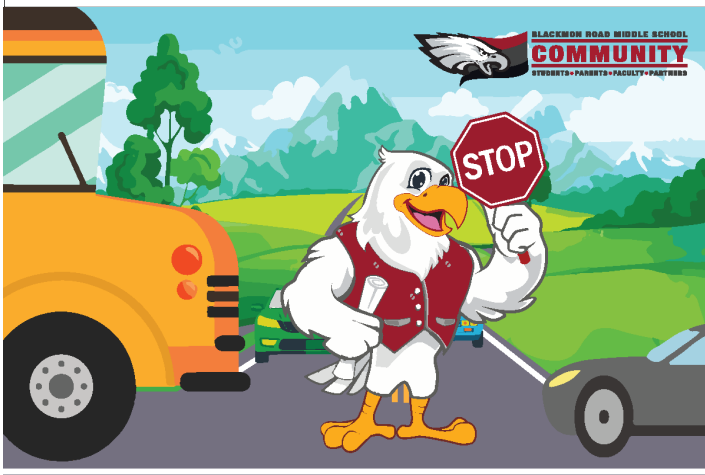

\*No major discipline resulting in ISS/OSS or more than 1 Saturday School for the nine weeks' period to qualify.
