## Assumption of Risk & Waiver of Liability

Even though steps are being implemented to reduce the risk of transmission, MCSD cannot prevent your child from being exposed to, contracting, or spreading COVID-19 if you decide your child will participate in school athletic activities. Therefore, if you choose for your child to participate you may be exposing your child, your family and others to a risk of contracting or spreading COVID-19.

**ASSUMPTION OF RISK: I have read and understand the above warning concerning COVID-19.** I hereby choose to accept the risk that my child may contract COVID-19 while engaging in school athletic activities. I further accept the risk that, if my child contracts COVID-19, that he or she may spread the virus to others he or she comes in contact with, including family members. I accept these risks because I want my child to participate in school athletics.

**WAIVER OF LAWSUIT/LIABILITY: I hereby forever release and waive on behalf of myself, my heirs, executors or assigns any right to bring suit for myself or on behalf of my child against MCSD and its officers, administrators, teachers, officials, agents, employees, or other representatives in connection with exposure, infection, and/or spread of COVID-19 related to participating in school athletic activities.** I understand that this waiver means I give up my right to bring any claims including for personal injuries, death, disease or any other loss I may have to seek damages, whether known or unknown, foreseen or unforeseen.

CHOICE OF LAW: I understand and agree that the law of the State of Georgia will apply to this contract.

**I HAVE CAREFULLY READ AND FULLY UNDERSTAND ALL PROVISIONS OF THIS RELEASE, AND FREELY AND KNOWINGLY ASSUME THE RISK ON BEHALF OF MYSELF AND MY CHILD AND WAIVE MY RIGHTS CONCERNING LIABILITY AS DESCRIBED ABOVE.**

We understand that the student-athlete will be under the supervision and direction of a MCSD athletic coach. We agree to follow the rules of the sport and the instructions of the coach in order to reduce the risk of injury to the student and other athletes. However, we acknowledge and understand that neither the coach nor MCSD can eliminate the risk of injury in sports. Injuries may and do occur. Sports injuries can be severe and in some cases may result in permanent disability or even death. We freely, knowingly, and willfully accept and assume the risk of injury that might occur from participation in athletics.

# Georgia High School Association Student/Parent Concussion Awareness Form

**SCHOOL:** \_\_\_\_\_

## **DANGERS OF CONCUSSION**

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor “ding” to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

## **COMMON SIGNS AND SYMPTOMS OF CONCUSSION**

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

**BY-LAW 2.68: GHSA CONCUSSION POLICY:** In accordance with Georgia law and national playing rules published by the National Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management.)

a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out.

b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.

***By signing this concussion form, I give \_\_\_\_\_ High School permission to transfer this concussion form to the other sports that my child may play. I am aware of the dangers of concussion and this signed concussion form will represent myself and my child during the 2022-2023 school year. ## Student/Parent Sudden Cardiac Arrest Awareness Form

SCHOOL: \_\_\_\_\_

### 1: Learn the Early Warning Signs

If you or your child has had one or more of these signs, see your primary care physician:

- Fainting suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones
- Unusual chest pain or shortness of breath during exercise
- Family members who had sudden, unexplained and unexpected death before age 50
- Family members who have been diagnosed with a condition that can cause sudden cardiac death, such as hypertrophic cardiomyopathy (HCM) or Long QT syndrome
- A seizure suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones

### 2: Learn to Recognize Sudden Cardiac Arrest

If you see someone collapse, assume he has experienced sudden cardiac arrest and respond quickly. This victim will be unresponsive, gasping or not breathing normally, and may have some jerking (Seizure like activity). Send for help and start CPR. You cannot hurt him.

### 3: Learn Hands-Only CPR

Effective CPR saves lives by circulating blood to the brain and other vital organs until rescue teams arrive. It is one of the most important life skills you can learn – and it's easier than ever.

- Call 911 (or ask bystanders to call 911 and get an AED)
- Push hard and fast in the center of the chest. Kneel at the victim's side, place your hands on the lower half of the breastbone, one on top of the other, elbows straight and locked. Push down 2 inches, then up 2 inches, at a rate of 100 times/minute, to the beat of the song "Stayin' Alive."
- If an Automated External Defibrillator (AED) is available, open it and follow the voice prompts. It will lead you step-by-step through the process, and will never shock a victim that does not need a shock.
