

## Video, Film & Graphics Program Guide

Video, Film and Graphics programs attract creative students who enjoy designing, producing, exhibiting, performing, writing, and publishing multimedia content. Careers in these areas include journalists, actors, dancers, singers, radio announcers and behind-the-scenes workers.

### Start In High School. Follow *Your* Perfect Path.

#### High Schools

By participating in high school CTAE programs, students can create opportunities to continue their studies in college, pursue an entry-level job, or serve in a related field in the military. (See back for a full list of programs.)

#### SkillsUSA

SkillsUSA is the Career & Technical Student Organization (CTSO) that gives students an opportunity to participate in career-related competitions across the state and nation, and gain leadership experience.

#### Certifications

After completing a CTAE pathway, students prepare for certification exams, at CTAE expense, that may qualify them for entry-level jobs and/or college credit. Certifications in Adobe Premiere, Adobe Photoshop, and Adobe Illustrator are available depending upon the chosen pathway.

#### Work-Based Learning

Students have the opportunity to be released early from school to work in positions related to their CTAE pathways.

#### Direct-to-Work

Rigorous high school programs prepare students for video and graphics careers upon graduation.
