## **Arts, Audio-Video Technology & Communications Pathways**

### **Audio & Video Technology & Film**

10.51810 Audio & Video Technology & Film I (Grades 9-12)

10.52110 Introduction to Film Production (Grades 9-12)

10.52210 Film Production Applications (Grades 9-12)

#### **Audio & Video Technology & Film I 10.51810**

This course will serve as the foundational course in the Audio & Video Technology & Film pathway. The course prepares students for employment or entry into a postsecondary education program in the audio and video technology career field. Topics covered may include, but are not limited to: terminology, safety, basic equipment, script writing, production teams, production and programming, lighting, recording and editing, studio production, and professional ethics. Skills USA and Technology Student Association (TSA) are examples of, but not limited to, appropriate organizations for providing leadership training and/or for reinforcing specific career and technical skills and may be considered an integral part of the instructional program. All material covered in Audio & Video Technology & Film I will be utilized in subsequent courses. The pre-requisite for this course is advisor approval.

#### **Introduction to Film Production 10.52110**

This course will serve as the second level course in the AVTF Film Production career pathway. The course prepares students by teaching introductory technical skills and employment needs for an entry level film production worker or to enter a postsecondary education program in the audio and video technology career field. Topics covered may include, but are not limited to terminology, safety, equipment, script writing, production teams, editing, post-production, and professional ethics. Skills USA and Technology Student Association (TSA) are examples of, but not limited to, appropriate Career, Technical Student Organizations (CTSO) for providing leadership training and for reinforcing specific career and technical skills and may be considered an integral part of the instructional program. The pre-requisite for this course is successful completion of Audio & Video Technology & Film I course.

#### **Film Production Applications 10.52210**

This course will serve as the third-level course in the AVTF Film Production career pathway. This course prepares students to participate in multiple class-created film production team simulations and film projects to develop a professional film portfolio. This portfolio may include documents, projects, documented work activities in various simulated film production departments and film clips and related projects showcasing student activities. Students may also enter a postsecondary education program in the audio and video technology career field after completing this course. Topics covered may include terminology, safety on a set, production teams, equipment, script writing, production, editing, post-production, and professional ethics. Skills USA and Technology Student Association (TSA) are examples of, but not limited to, appropriate Career, Technical Student Organizations (CTSO) for providing leadership training and for reinforcing specific career and technical skills and may be considered an integral part of the instructional program. The pre-requisite for this course is successful completion of Audio & Video Technology & Film I and Introduction to Film Production courses.
