

Apprentice Lineworker Summer Internship with Georgia Power

Are you looking for a career after high school? Look no further. Georgia Power has summer internship positions available to students looking to get into the utility industry. This 8-week paid internship will give you an understanding of the electrical lineworker career and how to get into that career field.

To learn more about getting into our internship program, please attend our webinar; we will give an overview of the program and what you can expect to do on a typical day. First-year salaries for Apprentice Lineworker is 48,000, plus benefits & bonus.
